

HIRAL PANCHAL

Data Analyst · Business Intelligence

(+91) 7304206771 | hp0505157@gmail.com | GitHub | LinkedIn | Thane, Maharashtra

PROFILE SUMMARY

B.Sc. IT graduate designing data pipelines, building interactive BI dashboards, and applying supervised machine learning to solve problems. Proficient in Python, SQL, Excel, Power BI, and ETL automation. Track of data wrangling, EDA, statistical analysis, and translating complex datasets into clear, actionable insights for business stakeholders. Experienced with cloud platforms, CI/CD, with additional expertise in LLM integration for AI-powered data products. Combines a data-driven decision-making mindset with engineering foundations to deliver scalable analytics solutions.

TECHNICAL SKILLS

- **Languages:** Python · R
- **Data & ML:** NumPy · Kaggle
- **BI & Reporting:** DAX · Google Colab
- **Data Engr.:** CSV · Jupyter Notebook
- **Databases:** MySQL · MongoDB Atlas · SQLite · PostgreSQL
- **Cloud & DevOps:** AWS EC2 · Git · GitHub
- **AI / GenAI:** LLM API Integration · Prompt Engineering
- **Practices:** A/B Testing

ACADEMIC PROJECTS

Excel ETL Automation | Pipeline ,
Python 3 · OpenPyXL · XLSX Processing · Reporting
Engineered to ingest multi-sheet transaction records, apply configurable column-level business logic, and output analysis-ready datasets with dynamic BarChart visualisations, eliminating 100% of manual spreadsheet work and cutting cycle time.

Music Genre Predictor | Classification ,
Pandas · Scikit-learn · joblib · Jupyter Notebook
Built for covering data ingestion, EDA, feature engineering, training, and evaluation. Implemented reproducible workflows with clean preprocessing separation, producing serialised, deployment-ready model artefact.

Customer KPI Dashboard | BI ,
MS Excel · Pivot Tables · Power Query · Charts
Performed analysis on raw customer transactional record, data cleaning and payment-mode/job-category segmentation. Delivered a structured three-layer workbook translating complex data patterns into an executive-ready insights narrative.

PyShop | ORM , *Django · SQLite · PostgreSQL*
Designed a relational schema for an e-commerce platform with Product and Offer models, enforcing referential integrity. Executed migration demonstrating cloud-ready, production-scalable database architecture.

ACHIEVEMENTS / HOBBIES

- Actively participated in Tech-A-Thon (hackathons) twice
- Secured subject topper rank in Advanced GST Using TallyPrime & DevOps
- Various activities include reading books, coding, listening to music, and playing games

CERTIFICATES

Certificate of Selection | TechnoBeat/SCT
• Jan 2026

Skyscanner SWE Simulation | JS/React, Forage
• Jul 2025

EDUCATION

B.Sc. Information Technology , *Mulund College of Commerce*
2023 – 04/2026 | Mulund
CGPA : 7.80

XII (HSC) , *Somaiya Vidyavihar University*
2023 | Vidyavihar
79.67 %

EXPERIENCE

Crossfade Productions , *Sales Representative*
05/2026 – Present | Bhandup
Drove B2B outbound client acquisition for a media production house, managed end-to-end sales cycle from prospecting and pitching to deal closure, contributing directly to project pipeline growth.

InAmigos Foundation (IAF) , *AI Content Writer Intern*
04/2026 | Chhattisgarh
Produced bilingual (Hindi/English) multi-platform content campaigns for Project Bachpanshala across LinkedIn, Instagram, and Twitter/X - independently adapted messaging for three distinct audience profiles with zero revision cycles.

Digi Suraksha Parhari Foundation , *Cyber Security Intern*
04/2025 – 05/2025 | Haryana
Performed ethical hacking, OSINT, and web vulnerability assessment using Linux, TryHackMe, and OverTheWire; gained hands-on experience with SSH, VPN, exploit research, and security debugging tools. Architected an award-winning four-agent cybersecurity platform validated against attack techniques, demonstrating applied security engineering and AI integration skills.

CA Office, Data Entry Operator (Tally ERP)
Part-time
Maintained financial records across multiple client accounts in ERP, managing ledgers, GST entries, and bank reconciliation under strict deadlines, demonstrating high data accuracy and compliance adherence.

POSITION OF RESPONSIBILITY

Leadership | Technobeat, MCC,
Led group projects or team activities
(15–16 Feb, 2025)

Foundational C# with Microsoft | freeCodeCamp
• Jun 2024
