

HIRAL PANCHAL

Full-Stack Dev · SaaS & AI Integration

(+91) 7304206771 | hp0505157@gmail.com | GitHub | LinkedIn | Thane, Maharashtra

PROFILE SUMMARY

B.Sc. IT fresher and results-driven Software Engineer with end-to-end ownership of production-ready web applications. Proficient in JavaScript, React.js, Node.js, and RESTful API development with hands-on experience building multi-user SaaS platforms featuring real-time functionality, authentication, RBAC, and cloud deployment via Vercel and Netlify. Strong grasp of software development lifecycle (SDLC), agile methodologies, version control (Git/GitHub), containerisation, and CI/CD pipeline automation. Proven ability to integrate third-party APIs, AI/LLM services, and build secure, scalable, test-driven full-stack applications from concept to deployment.

TECHNICAL SKILLS

- **Languages:** JavaScript · Python
- **Backend & APIs:** Express.js · Socket.io
- **Frontend:** HTML5 · CSS3 · Responsive Web Design
- **DevOps & Cloud:** AWS EC2 · Linux · Bash/Shell Scripting
- **Databases:** MongoDB · MySQL
- **Testing & QA:** Postman
- **Concepts:** MVC Architecture · Microservices · OOP · VS Code
- **AI & Security:** AI API Integration · LLM Prompting

ACADEMIC PROJECTS

Protein Bind , Next.js · TypeScript · Ably Pub/Sub · NextAuth · ApexCharts · Jest · Pytest

Architected and shipped a production-ready multi-user web application end-to-end, covering: requirement analysis and system design. Engineered real-time collaborative features using WebSocket, JWT auth, and dynamic dashboards for live research analytics. Built automated transactional email flows (Resend API), drag-and-drop file uploads with streamed Buffer processing, and server-side paginated data browsing, improving UX and performance. Achieved production-grade quality with 5-layer test coverage: unit, integration, and manual, zero critical defects at release.

CI/CD Pipeline Automation, Jenkins · Docker

Designed and implemented a multi-stage automating code checkout → build → execution, eliminating manual release overhead entirely. Authored a production-ready file with parameterised triggers, runners for environment consistency, and failure notifications, following best practices.

Linktree Clone , Dynamic Routing

Developed a full-stack application with dynamic routing ([handle]), persistence, and demonstrating end-to-end ownership of frontend, backend, and database layers.

CERTIFICATES

Certificate of Selection |
TechnoBeat/SCT

- Jan 2026

Skyscanner SWE
Simulation | JS/React,

- Forge**
- Jul 2025

Foundational C# with
Microsoft | freeCodeCamp

- Jun 2024

TallyEssential Level 1 |
TallyPrime ERP Solutions

- Apr 2024

POSITION OF RESPONSIBILITY

Leadership | Technobeat, MCC, Led group projects or team activities

(15–16 Feb, 2025)

ACHIEVEMENTS / HOBBIES

- Actively participated in Tech-A-Thon (hackathons) twice
- Secured subject topper rank in Advanced GST Using TallyPrime & DevOps
- Various activities include reading books, coding, listening to music, and playing games

EDUCATION

B.Sc. Information Technology,

Mulund College of Commerce | MU

2023 – 04/2026 | Mulund

CGPA: 7.80

XII (HSC), Somaiya Vidyavihar University

2023 | Vidyavihar

79.67 %

EXPERIENCE

Crossfade Productions , Sales Representative

05/2026 – Present | Bhandup

Drove B2B outbound client acquisition for a media production house, managed end-to-end sales cycle from prospecting and pitching to deal closure, contributing directly to project pipeline growth.

InAmigos Foundation (IAF) , AI Content Writer Intern

04/2026 | Chhattisgarh

Produced bilingual (Hindi/English) multi-platform content campaigns for Project Bachpanshala across LinkedIn, Instagram, and Twitter/X - independently adapted messaging for three distinct audience profiles with zero revision cycles.

Digi Suraksha Parhari Foundation , Cyber Security Intern

04/2025 – 05/2025 | Haryana

Performed ethical hacking, OSINT, and web vulnerability assessment using Linux, TryHackMe, and OverTheWire; gained hands-on experience with SSH, VPN, exploit research, and security debugging tools. Architected an award-winning four agent cybersecurity platform validated against attack techniques, demonstrating applied security engineering and AI integration skills.
